SUMMARY

An organized, meticulous professional, enthusiastic, innovative, and goal-oriented with a sharp technical acumen, solid educational background, passion for software development, and poised to leverage keen programming and coding expertise within an Agile environment. Willing to work remotely or relocate.

- *Software development* - Familiar with the entire software development process from design and development to testing and deployment. Well-trained in translating UX concepts into code, developing new user features, and developing responsive apps. Skilled in crafting code for various software functions, testing functionality of applications, and tweaking the code to perfection.

- *Programming -* Basic knowledge of standard programming algorithms, design patterns, and object-oriented (OOP) software designs. Expertise in discussing requirements with clients, testing programs and fixing problems, and writing clean and reusable code. Curiosity to learn new tools and technologies. Ability to plan, execute, and control multiple projects simultaneously.

- *Collaboration & Team Building -* Quick learner and dedicated team player with a 'can do' attitude and ability to propel projects and teams to peak results while working with minimal supervision. Instrumental in collaborating with designers, developers, clients, and other product stakeholders to enhance product features, functionality, and reliability.

- *Key Strengths -* Excellent leadership, communication, interpersonal, organizational, and problem-solving skills. Capacity to work well under pressure, quickly learn job functions, and effectively handle a variety of tasks while remaining detail oriented. Excel in fast-paced, high-growth environments with tight deadlines and shifting priorities. Bilingual in English and Spanish.

AREAS OF EXPERTISE

- React
- Gatsby
- Node
- Express
- HTML, HTML5
- CSS, CSS3
- JavaScript (JS)
- ES6
- Ruby
- SQL
- Bootstrap
- Bulma
- Sass
- Firebase
- Ruby on Rails
- RSpec
- Heroku
- Netlify
- Git, GitHub
- Webpack
- Visual Studio Code
- RSpec
- Figma
- Adobe Photoshop
- Restful APIs
- GraphQL
- Docker
- Typescript

EDUCATION

Bachelor of Arts in Spanish Studies, Minor: Literature | University of California, Santa Cruz, California, 2015

Web Development Bootcamp | Bloc, Online, 2019

WORK EXPERIENCE

Jr Ruby on Rails Developer, WORKPLACE21, Remote   **Feb 2020 – April 2020**

Building the future workplace of Augmented Leaders, prioritize and develop skills, augment leaders, and leverage the best of a team's collective IQ, EQ and AQ, all remotely.

Web Development

Writing Ruby and React code for an app called TEAMS, creating and reviewing Github pull requests, QA testing app in staging, and researching and developing an approvable Slack app.

- *Finding bugs in the staging/production version of the app that was hosted on Heroku.*
- *Using an add-on called Airbrake to detect bugs.*
- *Created GitHub issues based on the Airbrake error*
- *Worked on these issues and reviewed other developers' pull requests*
- *Did research on how to correctly make a Slack app.*
- *Did pair programming with the lead developer.*

Technologies learned: HTML/HTML5, CSS/CSS3, Bootstrap, JavaScript, jQuery, React.js, Ruby, Ruby on Rails, Git and GitHub, Atom Text Editor, Visual Studio Code

ADDITIONAL EXPERIENCE | PROJECTS

TravelBucket, Ruby on Rails, Bootstrap   Github   Live

Developer | Designer

- Designed and developed a Reddit-style application with mobile-first and responsive design using Bootstrap framework and monitored validation and functionality by writing tests with RSpec framework.

- Implemented CRUD actions for posts, comments, and favourites using Rails' MVC architecture and created a custom user authentication and password reset functionality with Rails Action Mailer.

SpeedySpanish Quiz, React.js, Hooks, HTML5, CSS3   Github   Live

Developer | Designer

- Built a Single Page Application (Spanish Quiz app) by using React, managed state leveraging React useState hook, and styled responsively with CSS3 media queries.

recordexpungePDX, CodeforPDX project   Github   **Jan 2020 – April 2020**

CodeforPDX project

- Resolved various GitHub issues by collaborating with other developers and leveraged Redux code to conditionally render Admin on the navigation menu.
