Angie Rodriguez

Vancouver, Washington 98662 • 209-915-8568 • angrodri902@gmail.com • LinkedIn • GitHub • Portfolio

QUALIFICATIONS PROFILE

Enthusiastic, innovative, and goal-oriented professional with a sharp technical acumen, solid educational background, passion for software development, and poised to leverage keen programming and coding expertise within an Agile environment.

- **Software development:** Familiar with the entire software development process from design and development to testing and deployment. Well-trained in translating UX concepts into code, developing new user features, and developing responsive apps. Skilled in crafting code for various software functions, testing functionality of applications, and tweaking the code to perfection.

- **Programming:** Basic knowledge of standard programming algorithms, design patterns, and object oriented software designs. Expertise in discussing requirements with clients, testing programs and fixing problems, and writing clean and reusable code. Curiosity to learn new tools and technologies. Ability to plan, execute, and control multiple projects simultaneously.

- **Collaboration & Team Building:** Quick learner and dedicated team player with a 'can do' attitude and ability to propel projects and teams to peak results while working with minimal supervision. Instrumental in collaborating with designers, developers, clients, and other product stakeholders to enhance product features, functionality, and reliability.

- **Key Strengths:** Excellent leadership, communication, interpersonal, organizational, and problem solving skills. Capacity to work well under pressure, quickly learn job functions, and effectively handle a variety of tasks while remaining detail oriented. Excel in fast-paced, high-growth environments with tight deadlines and shifting priorities. Bilingual in English and Spanish.

Technical Proficiencies:

Languages:	HTML5, CSS3, JavaScript, ES6, Ruby
Frameworks:	Bootstrap, Bulma, Sass, React.js, Gatsby.js, Node.js, Express.js, Firebase, Ruby on Rails, Heroku, Netlify
Software & Tools:	Git, GitHub, Webpack, Visual Studio Code, RSpec, Figma, Adobe Photoshop, Restful APIs, GraphQL

RECENT WORK EXPERIENCE

Jr Ruby on Rails Developer | WORKPLACE21 (Feb 2020 – April 2020)

- Writing Ruby and React code for app called TEAMS, creating and reviewing Github pull requests, QA testing app in staging, and researching and developing an approvable Slack app.

EDUCATIONAL BACKGROUND

Bachelor of Arts in Spanish Studies, Minor: Literature | University of California, Santa Cruz, California (2015)

Web Development Bootcamp – Bloc, Online (2019)

RELEVANT PROJECTS

TravelBucket (Ruby on Rails, Bootstrap)

- Designed and developed a Reddit-style application with mobile-first and responsive design using Bootstrap framework and monitored validation and functionality by writing tests with RSpec framework.
- Implemented CRUD actions for posts, comments, and favourites using Rails' MVC architecture and created a custom user authentication and password reset functionality with Rails Action Mailer.

SpeedySpanish Quiz (React.js (Hooks), HTML5, CSS3)

- Built a Single Page Application (Spanish Quiz app) by using React, managed state leveraging React useState hook, and styled responsively with CSS3 media queries.

recordexpungePDX - CodeforPDX project (Jan 2020 – April 2020)

- Resolved various GitHub issues by collaborating with other developers and leveraged Redux code to conditionally render Admin on the navigation menu.
